RE: Amateur Radio License W4JYZ
Warning Notice--Broadcasting

Dear Mr. Anderson:

Commission monitoring indicates that between 1 p.m. and 2 p.m. on November 25 on 14.313 MHz, you were transmitting various discourses to no station in particular. Section 97.113(b) prohibits broadcasting in the Amateur Radio Service. Your lengthy lectures on "switching power supplies" and "interference on the Amateur bands" and "radio cowards" to no specific Amateur station violate that rule and degrade the Amateur frequencies for legitimate communications.

We note that on January 9, 1999, you received a Warning Notice pertaining to interference on the 75-Meter and 20-Meter Amateur Bands, and that on February 20, 2001 you were given a verbal warning concerning broadcasting on 20-Meters. Please be advised that one more instance of rule violations will result in enforcement action against you. This action will include monetary forfeiture, removal of voice privileges from your license, or revocation and suspension proceedings.

This is the last written warning you will receive before such enforcement action is taken. Please call me at 717-338-2502 if you have any questions about this matter.

Sincerely,

W. Riley Hollingsworth
Federal Communications Commission
