

=FALSE AND FRAUDULENT LETTER POSTED BY KAROL FLORIAN MADERA=

Dear Captain Madera,

April 19, 2007

As a retired maxillofacial reconstruction surgeon I've seen the ravages of war. My partners Harry Seldin, William Harrigan and I organized the department of oral and maxillofacial surgery at New York University where many of our patients were returning veterans.

What Geo W Bush has done to this country's constitution is an absolute travesty. I fear it will be a cold day in hell when this country wakes up to find that it's wasted its international currency on sabre rattling and disingenuous dealings.

Like you, I graduated near the top of my class, served in Korea as an officer, and I don't suffer damnable fools lightly.

This Whatley character is a neighbor of mine and I listen to 3,851 here in Florida where he often comes to play music, use obscene language, insult people and play his recordings. I've heard him say openly and often that he'll interfere with you whenever he can. You're right to paint him as a menace. He is a bully! He and his friend Sal pick on newcomers constantly and act as though they own the airwaves.

I'm writing to my Congressman about this and to Whatley's department heads at the Del Ray police department. I hope to join your army of one to help get rid of this impostor for good.

Please feel free to write me at your convenience and if you wish to publish this letter I would be proud to read it on your internet page.

Sincerely,

Leo Winter Jr., MD, DMD
