---

Silly me, at first I thought the Major Media had committed even another establishment disinformation crime when it printed and promulgated the CIA's own investigation of the CIA's involvement in the Crack epidemic with a straight face.. (See, "CIA looks up it's own ass and finds nothing") But then I realized that this is a country that values free speech and the Reagan/Bush/CIA Crack Coalition with their Black Revolutionary Nullification Programs have just as much (if not more) right to space in the conservative owned LIBERAL MEDIA as any other rich and powerful group. Then, when the MoralMafia@Christian.com piped in as approving the report, it all fell into place.

The Crack in the Ghettos Campaign was just part of fine old American Christian Religious Tradition.

Remember with pride those fine moments of Christian Charity in our history when generous white Christians gave warm blankets christened with Holy Small Pox to another darker skinned people, the Native Americans.

Then there is the heart warming story of the Holy Massacre of the Huron men, women and children where these fine white Christian Soldiers had the considerate foresight to have Priests follow in their bloody footsteps to christen the dead or near dead "Indians" so their mortal souls would not have to burn in the everlasting firey hell of our Merciful Christian God.

So you see now that cheap cocaine for the ghetto poor is but another wonderful story in the fine old

American tradition of Christian Charity. We must also realize that the Reagan/Bush/CIA \_Crack For Coloreds\_ program is very consistent with other conservative social programs. And By God, it makes money! How many of us have taken the time to consider the positive aspects of this brilliant endeavor.

I shall list some of them:

- 1) The CFC program prevented blacks from destroying a long standing relationship with an extremely loyal oppressor.
- 2) It saved many blacks from the necessity of an expensive education while setting them up in a business of their own. (A brilliant two-fer)
- 3) It reduced use of dangerous Marijuana.
- 4) It allowed many poor blacks to purchase expensive assault weapons they would never have been able to afford while increasing revenues for hard strapped assault weapons manufacturers. (Another brilliant two-fer)
- 5) It has provided much needed humanitarian aid for the poor unfortunates at Hughes

**helicopter and Dow Chemical.**

- 6) Helps supply public service jobs for talented bully's.**
- 7) Advanced goal planning assured the success of the recent Massive Urban Renewal and real estate devaluation programs in Los Angeles**
- 8) Keeps jack booted thugs in peoples homes where they belong.**
- 9) The violence it causes can be used as another excuse to disarm the American public.**
- 10) It made Prisons a growth industry supplying a much needed workfare program for otherwise unemployable sadists prison guards while providing many young black males with much needed housing and a place to congregate in a structured learning environment where they could polish their professional skills. (Are these guys brilliant, or what?!)**

**These are just a few of the positive aspects of just one of many similar Republican/CIA/Conservative Christian social agendas. Eat your little bleeding hearts out Liberals! And send the poor CIA and the Republicans some money! Times are hard. CIA shipments of Cocaine are down at least 20% what with this Conservative Owned Liberal Media flap and all.**
